- Physical Oceanography
- Sedimentology

Benefits of Oi China

- Chinese Maritime Industry enjoying rapid growth following declaration at the 18th CPS Congress to build up China as a strong maritime power.
- Chinese-based events offer excellent engagement opportunities for western companies with government buyers, as the majority of these buyers cannot attend overseas events.
- Oi China is the key channel for buyers, as to take part in shows as well as peer recommendations are the key channels for them to obtain product information.
